

U2B

Force Transducer

Special features

- Tensile/compressive force transducer
- Non-rusting, degree of protection IP67
- Can be configured with different cable lengths, plug fitting and TEDS on request
- Nominal (rated) forces 500 N ... 200 kN
- Integrated lateral force compensation
- Low overall height

Versions and ordering numbers

Code	Measuring range	Ordering number	The ordering numbers shown in gray are preferred types and can be delivered rapidly. All preferred types come with free ends and without TEDS transducer identification. The example below describes a U2B with a capacity of 50 kN, 12 m connection cable, fitted SUB-HD plug for connection to the QuantumX amplifier and TEDS transducer identification chip.
